CORE BELIEFS

Our young CEOs will not learn meaningful life lessons by wasting time & making expensive mistakes, they will be coached by right mentors at right age.

Our children must become CEOs of their own lives before they lead the outside world.

Great CEOs don't do great things everyday, they do simple things with enormous discipline everyday.

WORDS FROM PARENTS.

DWARKESH DUDHAT
Father of Vishwa Dudhat

This program has been a true blessing for my daughter, Vishwa. She learned the right values in a structured way and gained confidence to present herself and communicate effectively. The biggest change I've seen is her ability to make independent, right decisions with clarity and discipline, especially in academics. I strongly recommend this course to the younger generation for strong life foundations and staying connected to their roots.

RUPA SHAH - URMIL SHAH
Parents of Aarav Shah

This program helped Aarav build leadership, confidence, and self-trust at a very young age. He now makes strong decisions, faces challenges independently, and believes in his abilities. This transformation has been invaluable as he studies abroad. A highly recommended course for shaping confident and capable young leaders.

WORDS FROM OUR YOUNG CEOs.

TANEY AGRAWAL

As I begin my Fintech startup journey, The Young CEO Club has played a crucial role in shaping my mindset. Joining the program during my school and college years helped me understand that true leadership starts with self-discipline, smart time management, and clear, written goals. Under the guidance of Mr. Payank Patel, I learned to turn goals into action, preparing me not just to build a business, but to lead with clarity and purpose.

VISHWA DUDHAT

I joined this program in 10th standard to build confidence and leadership skills, and it turned out to be truly life-changing. Now pursuing ACCA along with a B.Com, the course helped me grow academically and socially through goal setting, visualization, and disciplined planning. Payank Sir's mentorship built my confidence and taught me that consistent daily planning is the foundation of strong leadership.

WORDS FROM OUR YOUNG CEOs.

KRISHA SHINGALA

I am a second-year dental student at Rutgers University–New Brunswick, USA, and my journey with TYCC under the mentorship of Payank Sir has been truly transformative. The program strengthened my leadership, self-discipline, goal clarity, strategic planning, communication, confidence, decision-making, and resilience, helping me stay focused and perform under pressure.

MANTHAN PATEL

I completed this program in 2019 during my school days, and it was a truly transformative experience. It strengthened my leadership through practical learning, goal-setting, discipline, and communication in a positive, high-energy environment. Learning under the guidance of Payank Sir has been an inspiring journey that I will always value.
